**ProMate**™  
WATER CONDITIONING SYSTEM

# THE PROMATE™ WATER SOFTENING

Life is hard – especially if you have hard water in your home. Dissolved mineral deposits, rust, and sediments are the source of hard water. These substances can create serious problems. Hard water affects the taste of your drinking water. It creates scale, which can shorten the life of your pipes, water heater, dishwasher, and washing machine. Hard water deposits can also stain sinks and bathtubs, spot glasses and dishes, and leave your laundry dull and dingy.

There's a solution to hard water. Soften it with a ProMate™ water conditioner from Hellenbrand.

The ProMate removes dissolved minerals and other unwanted substances leaving your water softer, cleaner, and tastier.

With a ProMate water conditioner, you can live the soft life for just pennies per day. In fact, the ProMate practically pays for itself and then saves you money over its lifetime of use. With ProMate soft water, you'll be using less energy, detergents, personal-care products, and getting longer life from your plumbing and appliances.

- Water heater efficiency is increased 21% – 29% with softened water
- Save up to 70% on soap for the dishwasher, laundry, and bathing with softened water
- Save up to 25% on personal-care items such as hair conditioners and shaving cream with softened water
- Appliances like dishwashers and laundry machines last up to one-third longer with softened water
- Hot water heaters last up to twice as long with softened water
- Clothing will be whiter, brighter, and last longer with softened water

*All things considered, it pays to enjoy the benefits of ProMate soft water.*

Before you know it you will be living the soft life in every part of your home.

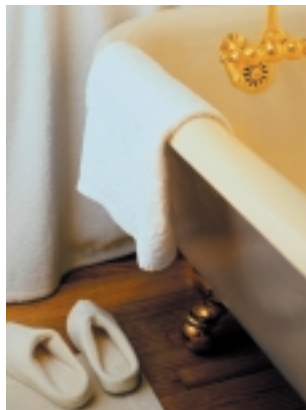

*In the kitchen the ProMate will give you . . .*

- shiny, spotless dishes and glasses
- a sparkling-clean sink
- longer life for plumbing and appliances

*In the bathroom . . .*

- cleaner fixtures with less soap-scum buildup
- stain-free sinks, tubs, and showers
- softer skin and more manageable hair
- use less shampoo and conditioners

*In the laundry . . .*

- wash is fresher, cleaner, and brighter
- longer life for washing machine
- use less detergent

## *Fully Automatic, Dependable, and Efficient Water Conditioning System*

The ProMate Series water-treatment system by Hellenbrand conditions water effectively and economically.

- Variable Reserve Automatically Adjusts To Your Family's Changing Water-Usage Patterns
- 12-Volt Operation
- Powerful, User-Friendly, Reliable Electronics That Automatically Monitor Many Water-Treatment Functions Including: *Days Since Last Regeneration, Gallons Since Last Regeneration, Gallon Reserve Capacity And Maximum Flow Rate For The Last Seven Days, Current Flow Rate, And Total Number Of Regenerations*
- Display Indicates Time Of Day And Gallons Remaining
- 10 Selectable Programming Options Ensure Conditioned Water For Your Family's Needs *Such As Variable Reserve, Fixed Reserve, Calendar Day Override, Delayed or Immediate Regeneration*
- Noryl™ Corrosion-Resistant Control Valve Body Is Durable For Long Life; All Internal Components Are Lead-Free
- Pre-Fill Salt Keeper With Softened Water Reduces Salt-Bridging Problems And Cleaning Of Salt Keeper
- Double Backwash For Optimizing Regeneration, Cleaning Ability, and Improved Efficiency
- No Need For A Battery Backup
- Permanent Memory Backup Of All Programmed Settings During Power Outages
- Insulated Seamless Tank Jacket Prevents Condensation Buildup, Keeping Your Conditioner And Floor Dry Year-Round (not available on all sizes)
- Uses Less Than \$2 Of Electricity Per Year
- Corrosion-Proof Tanks For Longer Life
- Full-Flow Bypass Valve

## HELLENBRAND'S FULL FAMILY OF WATER SOLUTIONS

### MILLENNIUM DRINKING WATER SYSTEMS

Hellenbrand Millennium Drinking Water Systems use a technology called reverse osmosis to provide water the way it was meant to be – clear, fresh, and safe without many of the contaminants found in ordinary tap water. The Millennium Drinking Water System will provide you with pristine, flavorful coffee, tea, juices, and better-tasting soups, sauces, and meals. Drinking quality water is also an important part to maintaining a healthy lifestyle, in addition to many other uses around the home like baby formulas, ice cubes, watering plants, steam irons, aquariums, and more.

### ULTRAVIOLET "UV" DISINFECTION SYSTEMS

All of us are exposed to UV rays from sources including the sun. When used with water treatment in a high-powered form called "germicidal UV," it is capable of disinfecting water by penetrating the cells of harmful bacteria and viruses that may be present in

your drinking water. With proper pretreatment for suspended solids (compounds such as iron and tannins) and softened water, these systems are very successful at destroying up to 99.99% of harmful microorganisms.

### CHLORINE CURTAIN

Hellenbrand Chlorine Curtains are used to remove unwanted chlorine, taste, and odors that may be present in your water supply. Chlorine is present in most city water supplies to prevent harmful bacteria from entering

the water supply as it travels sometimes miles from its source to your home. Chlorine, however, changes the taste and odor of your water, and when present in certain types of water supplies it can produce harmful by-products called Trihalomethanes, "THMs," which are linked to the incidence of cancer. Hellenbrand's Chlorine Curtain easily and effectively reduces the chlorine, taste, and odors.

### IRON CURTAIN™ FILTER SYSTEMS

Hellenbrand's patented nonchemical process used in the Iron Curtain™ Filtration System effectively removes iron and rotten egg odors that may be present in your water supply. As little as .3 ppm of iron can begin to show up in

stains around your sinks, tubs, water closets, and showers, not to mention the challenges it presents for keeping those whites "white" when doing laundry. The Iron Curtain™ System will allow you to enjoy the soft life, while saving you hundreds of dollars each year on the damages iron causes around your beautiful home.

### SATISFACTION GUARANTEED

Hellenbrand and its dealers back every product with a complete commitment to customer satisfaction and one of the most comprehensive product warranties in the water treatment industry. See product specification sheets for specific warranty details.
